

STUDY IN IRELAND

Welcome

“

Ireland offers the warmest welcomes to students from all over the world. Over 5,000 internationally recognised and quality assured programmes available to everyone.

The only English-Speaking country in the E.U., Ireland is globally connected and home to many of the world's top companies. With generous funding from the Irish government and Irish universities being the top 1% of research institutions worldwide, Ireland has achieved a steady growth of talented international students from across the globe taking advantage of the higher education standard.

Ireland produces unique, creative and innovative graduates ready for the world of tomorrow. Being educated in a friendly and welcoming environment is a life changing experience... It is an investment with a lifetime return of knowledge and wisdom.

”

Message from Her Excellency Hilary Reilly, Ambassador of Ireland to Malaysia

Dear prospective students and parents,

I am delighted to write some words of introduction for this publication presenting Ireland to prospective students in Malaysia.

Ireland and Malaysia have long-standing links in the field of education. Dating back many decades, thousands of Malaysian students have completed their education in Ireland and at Irish-run schools, colleges, universities and institutes of technology. Their field of study is varied, ranging from medicine, science, engineering, IT, business and accounting and to many other disciplines besides. In doing so, they have gained world class qualifications and experience at some of the most dynamic higher education institutions in existence today. Whether you are seeking a general degree or a more specialist qualification, I am confident that you will find an excellent programme in an Irish third level institution.

Education in Ireland is, however, also about more than study and qualifications. Malaysian students will find a warm Irish welcome, in a country renowned for its friendliness and for its global connectedness, a country steeped in scenic beauty, with a uniquely rich cultural heritage. As a small island nation on the west of Europe, we have a tendency for creative thinking, for being pioneering and agile, and this also helps to build skills of resilience, self-reliance and self-confidence. I hope that you will choose Ireland as a location for your overseas study, and I wish you all the best on that exciting journey.

Le gach dea-ghuí, With Best Wishes,

Hilary Reilly

Ambasadóir na hÉireann
Ambassador of Ireland

WHERE TO STUDY?

Ireland's 20 higher education institutions offer over 5000+ remarkable programmes. Covering a huge and diverse range, all of the courses lead to internationally recognised, quality assured qualifications. So whether you want a strong, focused business school, a centre of scientific and technological excellence, or a world-renowned English language, humanities and arts faculty... you'll find them all in Ireland.

Change More Lives Than Just Your Own

Irish universities are global research leaders. In many different fields, Irish universities are amongst the top research institutions in the world in terms of research impacts.

Ireland is the **3rd** most competitive economy in the EU and the **12th** most competitive in the world according to IMD.

Ireland is **14th** in the global scientific ranking for overall quality of scientific research.

PATHWAY

English Language Requirement

- **IELTS** - minimum score of 6.0
- **TOEFL** - minimum score of 580 (Paper-based test)
- **IGCSE O-Level** (English as First Language) - minimum Credit
- **Duolingo** - minimum score of 105
- **PTE Academic** – minimum score of 61
- **CEFR** - minimum of B2 level

*All of the higher education institutions and courses have their own specific English language entry requirements.

*Intensive English Summer Programme is available for students, who do not meet the English Requirements, to improve their level of English proficiency for academic studies.

The Irish Education

Irish Universities and Institutes of Technology both produce qualifications according to the Irish National Framework of Qualification (NFQ). These qualifications are underpinned by the core NFQ principles of quality assured education and international recognition for the purposes of academic progression and employment.

The Irish NFQ is aligned with the EU's Bologna process and the European Higher Education Area (EHEA), these mechanisms promote intergovernmental cooperation and bring coherence to higher education system across Europe. Making it possible for all students of Ireland to take part in exchange programmes and internships in other European countries as well as progressing their education around the globe.

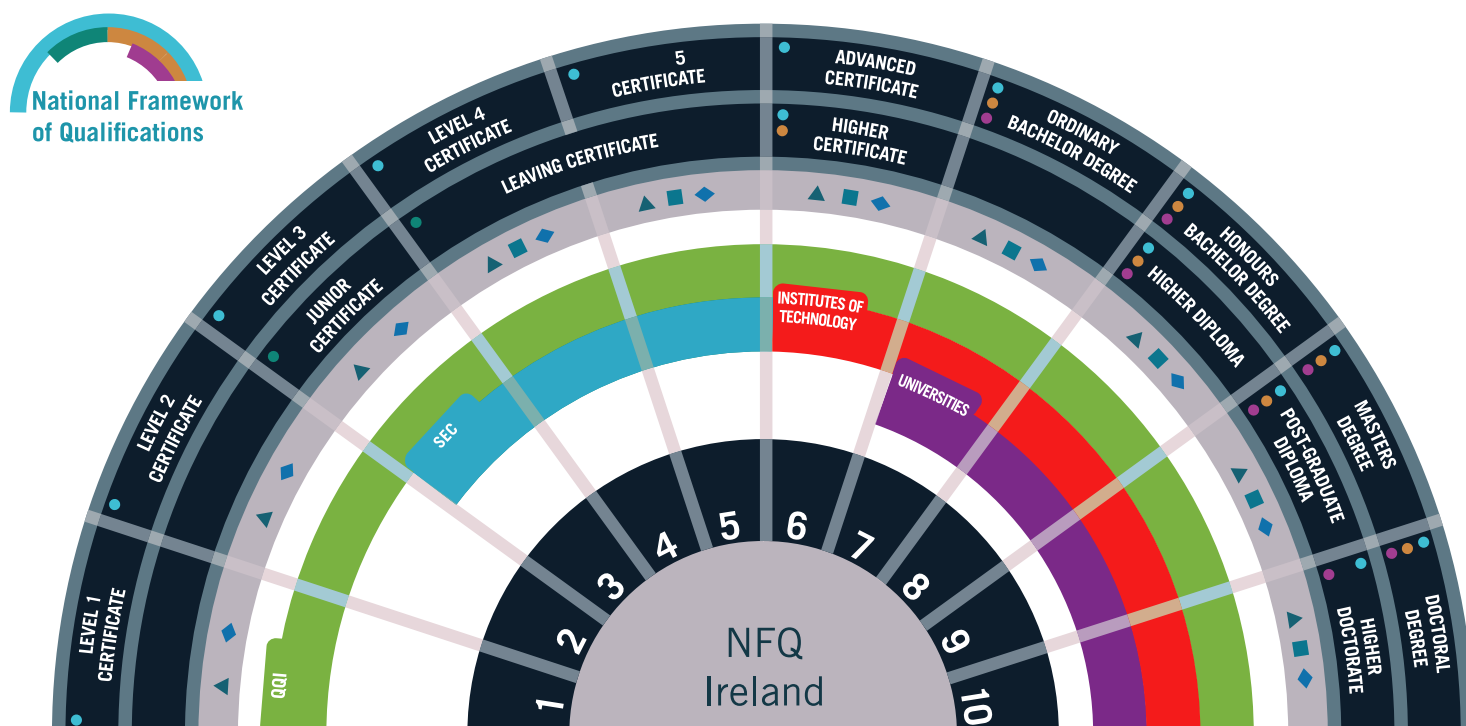

UNIVERSITY vs INSTITUTE OF TECHNOLOGY

The qualities of education in the Irish universities and institutes of technology revolves around the academic excellence and availability of scholarship. It is crucial, from undergraduate studies to doctoral programmes, to ensure the teaching methods are up-to-date and that learning must be inspired by the spirit of curiosity and discovery.

The Irish universities have centralised a system to ensure that teachers, students and researcher have access to the latest research outputs (papers, articles, theses, books, reports and etc.) from across the world as well as from within the institutions.

The Institutes of Technology (IoTs) are state-funded, internationally-recognised, flexible and dynamic tertiary education institutions with focuses on practicality of teaching & learning, industrial-driven research and economic, social & cultural engagement. Masters and PhD programmes are offered by both IoTs and Universities and are qualified and accredited under the NFQ.

In short, if you are a person who is passionate about academic research and enjoys giant campus with large lecture halls, universities are made for you. If you are a very practical person who finds smaller class more inclusive and enjoys industrial focused subjects, IoTs are built for you. Both are equally recognised by the NFQ and both provide equal mobility in the EU and the around the world.

AWARDING BODIES

- Quality and Qualifications Ireland (QQI) makes awards in further and higher education and training
- SEC - State Examinations Commission (Department of Education and Skills)
- Institutes of Technology
- Universities

AWARDS IN THE FRAMEWORK

There are four classes of award in the National Framework of Qualifications:

- ▲ Major Awards: named in the outer rings, are the principal class of awards made at a level
- ▲ Minor Awards: are for partial completion of the outcomes for a Major Award
- ▲ Supplemental Awards: are for learning that is additional to a Major Award
- ▲ Special Purpose Awards: are for relatively narrow or purpose-specific achievement

WHY STUDY IN IRELAND ?

An investment in high
Quality Education.

No Visa
requirement for
Malaysian.

International students
are entitled to 1 year of
Graduate Visa
after the completion
of their honours
degree.

Students will have an
opportunity to study and/or
work in other countries for a
semester or a year with the
Erasmus Program.

An **English**-speaking
country with global
connectivity.

A unique international
Student Experience.

Internship &
Work Placement
opportunities with Irish
and/or international
enterprise.

Graduates of Ireland are
highly employable with an
enormous
Career Opportunity
in an Entrepreneurial &
Innovative Society.

The
Minimum Wage
in Ireland is €10.50 per
hour.

YOUR PASSPORT TO THE FUTURE

About Us

Ever since our co-founder CK Chiau discovered the benefits of pursuing higher education in Ireland through his passion in education, he is convinced that students achieving their dream of studying abroad should always be affordable. As such, MyStudy has been guiding students on their application process to Ireland since 2010, through the continuous corporation and support from the Embassy of Ireland & Enterprise Ireland to promote the Irish education in Malaysia.

Since then, thousands of students have been benefited from our guidance and many of those are currently employed in Ireland and internationally. Seeing all these success stories from our alumni fuels our fiery passion even more. And with the birth of a new brand MyStudyIRL, we are committed to continuously improve our services and deliver the most neutral and informative advices to students and parents.

Our services include but not limited to;

- ✓ Education pathway counseling
- ✓ Course selection advice
- ✓ Career prospect advice
- ✓ Handle full application process
- ✓ Scholarship application
- ✓ Flight bookings
- ✓ Accommodation arrangements
- ✓ Pre-departure briefing
- ✓ Support and guidance from seniors and alumni upon arrival
- ✓ Student follow-up during studies and after graduation.

Study in Ireland at DkIT

We offer 70+ Bachelor and Master degree programmes in the areas of:

- Business
- Engineering
- Science
- Humanities
- Hospitality
- Computing
- Music
- Creative Media
- Health
- Data Analytics
- Renewable Energy

- **International Foundation Programme available**
- **Only one hour from Ireland's capital city Dublin**

- **Excellent Scholarships***
 - Free accommodation
 - Academic Merit
 - Sibling Discount

2/3 of all courses have work placement.

94% of our graduates progress into employment or further study within 9 months of graduating.

A global campus with international students from over 40 countries.

54% cheaper to live in Dundalk in comparison to Dublin.

Study at National College of Ireland

Dublin is your Campus

Why Study at NCI?

Location

NCI is located in the heart of Dublin City - excellent nightlife, sports, music, entertainment and shopping awaits you here!

Excellence

NCI has been awarded 5 Stars in the QS Stars rating for Higher Education Institutions.

International Support

NCI's award-winning International Office will ensure you have all the information and guidance you need from your arrival to Ireland until your graduation from NCI.

Academic Support

NCI's Learning Support Service offers students help and guidance on everything from academic writing to exam revision – just one of our many support services on campus.

Multiple Campuses, One University

SETU offers over 150 Undergraduate and Postgraduate Degrees across a range of discipline areas.

South East Technological University (SETU) is the first technological university in south east Ireland. It is a centre for innovation, opportunity and growth.

Through exceptional learning and collaboration, we aim to transform the ambitions of learners, researchers, and businesses across the south east and beyond.

With campuses in Waterford, Carlow, Wexford, Wicklow and Kilkenny, SETU serves more than 18,000 learners and employs more than 2,000 staff.

The contribution of **TUS** in shaping my career is undeniable. The learner-centric environment with the guidance and support from the faculty members are leading me to my dream job. The campus curriculum and also lots of competitions have helped me by improving my ability to learn faster and stay healthy. I will forever be thankful, thank you TUS and you will always have a special place in my life.

Lim Yit Man, Current Student.

Bachelor of Engineering (Honours) Civil Engineering.

University of Limerick

The University of Limerick (UL) is recognised internationally as a university of distinction, boasting a proud record of innovation in education and excellence in research. The University's aim to remain distinctive, pioneering and connected, and to shape the future by empowering people to meet the real challenges of tomorrow is rewarded by having the highest graduate employment in Ireland. UL is blessed with a superb riverside campus offering students outstanding recreational, cultural and sporting facilities, further enhancing this exceptional learning and working environment.

Study Abroad at UL offers a real international experience whereby students enjoy a truly integrated study abroad experience, living and learning alongside Irish and international students in a small friendly university. All UL students are encouraged to be active participants in their academic and cultural learning processes through engagement with both the UL and local community. With guaranteed accommodation and excellent learning facilities UL is perfect for an authentic study abroad experience. To make memories that last a lifetime, choose UL.

Student Testimonial

Studying in the MSc Synthetic Chemistry in UCD provided me many opportunities to explore the knowledge that is required in pharmaceutical field. Receiving the UCD 100% scholarship is the best award I had and I am glad to be part of UCD.
